

## **Reinventing**

Human beings  
Constantly reinventing the  
Human species  
By suffering  
Social function  
Will  
Civil rights  
Geographic distribution  
Unconventional stories  
Argument  
Exploration  
Identification and analysis—  
All of the shining lights of intellect  
Watched by the un-armed Lady of  
Ethics  
Screening the nature of society  
Rating its poetry  
Its pursuit of social justice  
Its moral virtue  
Honesty encountering and recognizing  
The self  
Measured even under moonlight  
The energy allotted to culture  
The effort to understand  
The intimate spaces of others  
Bringing past into present  
Without taint  
Deliberateness applied to searching  
For an enthralling beauty  
Found alive in intelligence  
Philosophically viewed,  
Enlivening the world's works  
With the joy of art.
